

**CHoPS 2018 - 9th INTERNATIONAL CONFERENCE
Conveying and Handling of Particulate Solids**

10-14 September 2018, at the Greenwich Maritime Campus, London

www.chops2018.org

Fusion of science and industry: *from particle contacts to bulk behaviour*

CHoPS project team: Prof M.S.A. Bradley, Mrs Caroline Chapman, Dr Pablo García-Triñanes

The conference at a glance

CHoPS, one of the largest international conferences devoted to all aspects of particulate solids technology, will be held at Greenwich Maritime Campus in London in 2018.

The Executive Committee, led by Chairman Prof. Mike Bradley, is calling for innovative and interesting papers on

- Powder flow testing;
- Segregation;
- Mixing;
- Mechanical conveying;
- Silo design for flow;
- DEM – process modelling;
- Mechanical behaviour of bulk materials;
- Wear;
- Particle attrition;
- Particle interaction / deformation;
- Industrial applications in the form of end user case studies;

Abstract submissions will accepted from January 2017.

CHoPS will once again be the forum for the greatest minds in this area of science and industry. Industry-specific and application-oriented contributions are especially welcome covering all scales of particulate processing.

CHoPS will be held under the chairmanship of the distinguished bulk solids handling expert Prof. Mike Bradley, Director of The Wolfson Centre for Bulk Solids Handling Technology, U.K. He is Chair of Solids Handling and Processing Association (SHAPA, the official trade body for the solids handling equipment industry), Fellow of the Materials Handling Engineers Association (MHEA), member of the Bulk Materials Handling Committee of the Institution of Mechanical Engineers and the international scientific council of the triennial International Conference on Conveying and Handling of Particulate Solids.

About CHoPS

CHoPS is organised by The Wolfson Centre for Bulk Solids Handling Technology and supported by SHAPA, IMechE, IChemE, MHEA, EFCE and many other associations. The last CHoPS Conference in 2015 brought together more than 200 particulate solids specialists and well-known scientists and

engineers from all over the world – with an international attendance of 80 percent. Established in 1995, CHoPS is one of the longest-running conferences on particulate solids anywhere in the world.

More information can be found at: www.chops2018.org

Specific information for exhibitors as well as sponsors packages will also be available.

Organized by:

The Wolfson Centre for Bulk Solids Handling Technology
University of Greenwich, Central Avenue, Chatham Maritime

CHoPS2018 Local Organising Committee:

Mike Bradley Caroline Chapman Pablo Garcia-Trinanes	The Wolfson Centre for Bulk Solids Handling Technology, University of Greenwich
Ian Birkinshaw	Solids Handling and Processing Association (SHAPA)
Andy Clow	KP Snacks
Beverley Ford	Rotaval Ltd
Peter Guttridge	Guttridge Ltd
Simon Livings	Nestlé
Nigel Mainwaring	Russell Finex
Michele Marigo	Johnson Matthey
Eddie McGee	Ajax Ltd
Don McGlinchey	Glasgow University
Marc Ottolini	International Innovative Technologies Ltd
Barry Ridley	Brookfield Engineering
Kelly Rose	Solids and Bulk Magazine
Csaba Sinka	Leicester University
David Smith	DJS Process Consulting
Peter Ullmann	Process Industry Informer
Stephen Ward-Smith	Malvern Instruments
Peter Webster	Materials Handling Engineers Association (MHEA)

Abstract and registration management:
